T786T Russia (1923-... - U.S.S.R.) Tsentral'noe statisticheskoe upravlenie.

Ten years of Soviet power in figures, 1917 ★ 1927. Moscow, Central statistical board, (1927). xiv, 516 p. Incl. tables, diagrs. port. 17". Page (vii) erroneously numbered vi.

"The present handbook, compiled on the original plan of the Editorial collegium of the Central statistical board, is intended to give a quantitative expression of the most important social and economic processes which have taken place on the territory of the USSR during the course of the last ten years of Soviet power... The present handbook is, to a certain extent, a reprint of the 'Statistical reference book of the USSR', which appeared in the spring of this year, compiled, however, on another plan, and based on a somewhat different arrangement of material."—Compilers, pref.
